

## DISABILITY EQUALITY INDEX® (DEI®) 6<sup>th</sup> Annual / 2020 Benchmark

### [ABOUT DEI](#)

The DEI is a joint initiative of the American Association of People with Disabilities (AAPD) and Disability:IN™. It is a national, transparent, annual benchmarking tool that offers businesses an opportunity to receive an objective score, on a scale of zero (0) to 100, on their disability inclusion policies and practices, and identify opportunities for continued improvement.

#### **About AAPD**

AAPD is a convener, connector, and catalyst for change, increasing the political and economic power for people with disabilities. As a national cross-disability rights organization, AAPD advocates for full civil rights for the 50+ million Americans with disabilities. Learn more at [www.aapd.com](http://www.aapd.com).

#### **About Disability:IN**

Disability:IN, formerly known as the US Business Leadership Network, is the leading nonprofit resource for business disability inclusion worldwide. Partnering with more than 160 corporations, Disability:IN expands opportunities for people with disabilities across enterprises. The organization and 50 affiliates raise a collective voice of positive change for people with disabilities in business. Through its programs and services, Disability:IN empowers businesses to achieve disability inclusion and equality, with the goal of advancing inclusion to the point when the organization is no longer necessary. Learn more at [www.disabilityin.org](http://www.disabilityin.org).

### [TERMS / INSTRUCTIONS](#)

Companies participating in the 2020 DEI understand the following terms and conditions, which AAPD and Disability:IN require for participation in the benchmark:

#### **General:**

- To receive a score report, benchmark responses must be submitted by 8:00pm Eastern Standard Time on the due date established by AAPD and Disability:IN.

- All DEI benchmark questions, weighted and non-weighted, must be answered. The purpose of non-weighted questions is to gather further information and/or to gauge where companies are holistically on a topic. Non-weighted questions may become weighted questions in future versions of the DEI benchmark.
- This benchmark will take an average of 30-40 hours to complete, including time to locate the required information. It may take more or less time depending on your answers. Typically, repeat participants report that the benchmark doesn't take as long as it did in their first year. Repeat participants are also given the option to import previous year's responses.
- Typically, one person acts as the official submitter of the benchmark and is responsible for obtaining information from multiple departments. However, representatives from the following departments may need to provide input to complete the benchmark:
  - Human Resources (HR)
  - Diversity & Inclusion
  - Staffing / Recruitment
  - Counsel / Legal
  - Supplier Diversity
  - Information Technology (IT)
  - Marketing / Communications
  - Corporate Giving / Corporate Foundation / Community Relations
- You can re-log into your benchmark any time during the benchmark period. Use the original link to re-access the benchmark at a later date.
- You may change your answers at any time before submitting your benchmark responses. However, once answers are submitted, they cannot be changed. The benchmark will be scored as submitted.
- Only one (1) benchmark may be submitted per company.

### **DEI Scoring Process:**

The score range for the DEI benchmark is zero (0) to 100, with 100 being the highest score.

As shown below, there are six (6) categories within the DEI benchmark. Five (5) of the six (6) categories are assigned a weight and the five (5) weighted categories total 100 points. Some of the five (5) weighted categories have subcategories. If applicable, a category total is the sum of its subcategories.

- **Culture & Leadership = 30 points**
  - Culture = 20 points
  - Leadership = 10 points
- **Enterprise-Wide Access = 10 points**
  - Enterprise-Wide Access = 10 points
- **Employment Practices = 40 points**
  - Benefits = 10 points
  - Recruitment = 10 points
  - Employment, Education, Retention, & Advancement = 10 points
  - Accommodations = 10 points
- **Community Engagement = 10 points**
  - Community Engagement = 10 points
- **Supplier Diversity = 10 points**
  - Supplier Diversity = 10 points
- **Non-U.S. Operations = Non-Weighted**

To receive full credit for a subcategory, you must answer “yes” to the number of weighted question sets specified for that subcategory. You must also provide the required information in the affirmative for all weighted sub-questions within those question sets in order for them to count. Partial credit will not be granted. Responses of “no”, “no, but plan to within the next year”, and “do not know” do not count for credit.

**Example:**

The “Culture” subcategory within the “Culture & Leadership” category is weighted 20 points. It has three (3) question sets. You must answer “yes” to at least two (2) of the three (3) question sets and provide the required information in the affirmative for all weighted sub-questions within those question sets in order to receive the 20 points.

The “Leadership” subcategory within the “Culture & Leadership” category is weighted 10 points. It has four (4) question sets. You must answer “yes” to at least two (2) of the four (4) question sets and provide the required information in the affirmative for all weighted sub-questions within those question sets in order to receive the 10 points.

Partial credit will not be granted. For example, if you meet the criteria for one (1) question set or less within the “Leadership” subcategory, no points will be granted because it requires at least two (2).

If you receive 20 out of 20 points for the “Culture” subcategory and zero (0) out of 10 points for the “Leadership” subcategory, your total for the “Culture & Leadership” category is 20 points out of 30 points possible.

### **Other DEI Response Information:**

- The DEI is a U.S. based benchmark; responses must consist of U.S. practices in order to receive credit.
  - The exception is the new Non-U.S. Operations benchmark section. Companies with Non-U.S. Operations will be directed to it. It does not impact score.
- “Company-wide” means company-wide in the U.S.
- Please use current information. “Current” means in place at the time of your submission and by no later than the benchmark due date.
  - The only exception is for questions that say “During the past year...”, which specify the period January 1, 2019 – December 31, 2019.
- If a question requires supporting documentation, those materials must be submitted with this benchmark to receive credit for the question.
  - Acceptable file formats include Rich Text Format (.rtf), Microsoft Word (.doc or .docx), Adobe Acrobat (.pdf), and compressed files (.zip) for multiple documents.
  - Please only submit documentation pertaining to the question rather than a full summary plan document and/or information not related to the question.
- If a question requires submission of a website URL, please only submit a URL that contains the language requested. Please be sure that the URL is available to the public and is not an employee intranet site. (Note for repeat participants: As website contents may change year over year, please be sure to test a previously submitted URL for relevance and accuracy prior to re-submission on the current benchmark.)
- Please refrain from using acronyms in your answers, unless the full wording/meaning has been initially referenced.

### **Use of Company Information:**

The score range for the DEI is zero (0) to 100, with 100 being the highest score possible. Scores are in increments of 10. Companies that score an 80 or above are considered top-scoring companies.

In general, any Confidential Information submitted in the DEI benchmark may be utilized for reporting purposes. However, it is important to note that individual company data is kept strictly confidential and individual company results are only reported as described below:

- DEI benchmark results are reported in aggregate and all company benchmark responses are used to report aggregate results regardless of benchmark score.
- Only companies with a score of 80 or above will be published.
  - Only the overall score is published. The breakdown of the score is not published. For example, if a company scores a 90, AAPD and Disability:IN state that the company scored 90. AAPD and Disability:IN do not state what category the 10 points were missed.
- Companies with a score of 80 or above may be recognized in several places, including the following: the DEI website, the DEI Annual Report, AAPD’s DEI website landing page, Disability:IN’s DEI website landing page, at an AAPD, Disability:IN, or DEI event, in press releases, and in other similar places.
- Companies with a score of 80 or above are recognized in a DEI Annual Report and may also be recognized in other similar DEI publications, which may be made publicly available. Specifically:
  - Your company will be listed as a top-scoring company.
  - One or more of your company’s innovative disability inclusion practices may be featured, at the joint discretion of AAPD and Disability:IN. In this case, your company name will be featured with the innovative practice(s).
    - Any specific information that is used will come from the “Best Practice” question that is at the end of each of the ten (10) benchmark subcategories and/or from Question 1 in the “Additional Information” section at the end of the DEI benchmark. These questions are marked accordingly within the benchmark.
      - “Best Practice” questions are optional and do not impact your DEI score.
      - Question 1 in the “Additional Information” section is optional and does not impact your DEI score.

- Companies that score a 70 or below are kept confidential. AAPD and Disability:IN do not release the company's name, score information, or benchmark responses, and only release information directly back to representatives of the company.
  - AAPD's and Disability:IN's obligation to maintain confidentiality does not extend to information that (a) is part of the public domain at the time of the disclosure or thereafter becomes a part of the public domain through no act or omission of AAPD and Disability:IN; (b) is approved for release by written authorization of the participating company that provided the information; or (c) is lawfully obtained from third parties who are not bound to a confidentiality agreement with the participating company.
- There are very few questions within the DEI that require uploading of company documents. For questions that require the uploading of documents, companies have the option to "opt-in" to allow AAPD and Disability:IN the option to share the information, otherwise the document(s) are kept confidential. If a company (that scores 80 or above) opts-in to share the information, AAPD and Disability:IN may use the document(s) as an example to other companies of the type of information we are seeking for the benchmark and/or as an example of best practice.
- AAPD and Disability:IN shall not use the name, trademark, symbol, or other identifier of the disclosing company, except for purposes of the DEI.
- AAPD and Disability:IN shall use the Confidential Information only for purposes of the DEI, in accordance with the terms of this Agreement. AAPD and Disability:IN shall not, nor permit any agent or employee to, disclose, copy, reproduce, sell, assign, license, market, transfer or otherwise dispose of or gift the Confidential Information to any other person, firm, or corporation without the written permission of the disclosing company.

### **Security:**

The DEI Benchmark Tool is hosted by New Editions Consulting, Inc. New Editions' most important concern is the protection and reliability of customer data and uses industry standard techniques to secure data. New Editions' servers are protected by high-end firewall systems, and vulnerability scans are performed regularly. All services have quick failover points and redundant hardware, and complete backups are performed nightly. New Editions uses Transport Layer Security (TLS) and Secure Sockets Layer (SSL) encryption (also known as HTTPS) for all transmitted data. Each company's DEI benchmark tool responses are password protected to protect confidentiality. Participating companies determine who within their company has access to the DEI benchmark tool. All PII and financial records are encrypted using a 256-bit AES algorithm prior to storage. Data is hosted by a third-party data center that leverages an ITIL-based control environment validated for compliance against HIPAA, PCI DSS and SOC (formerly SAS 70) frameworks. The data centers are also 100% compliant against OCR and PCI Audit Protocols.

**Do you accept the requirements listed above?** (NOTE: A response of “yes” is required to move forward with/begin the DEI benchmark.)
